

As one door closes, another opens.

We are excited to see how God uses Larry in his continued ministry to Church Leaders throughout Central Texas. To this end, Larry will work through Cultivating Grace, a non-profit ministry born out of a deep desire to come alongside pastors and churches.

Just as a gardener cultivates soil to create fertile ground for growth, this ministry seeks to cultivate hearts, leadership, and church cultures where grace can flourish. Through coaching, teaching, and partnering with church leaders, Larry's future work aims to help sow seeds of renewal, strengthen weary hands, and empower pastors to lead with boldness and compassion.

We are excited for what God has in store, planting and nurturing the gospel message in every place He leads. Let's cultivate grace and watch His kingdom grow!

Cultivating Grace is a dynamic ministry based in Central Texas, led by Larry Coulter and dedicated to empowering pastors, churches, and non-profits to advance the message of Christ in three ways:

- 1) Through mentoring and coaching, pastors are given the tools and encouragement to lead with vision and resilience.
- 2) The ministry helps churches develop innovative strategies for sharing the love of Christ, including planting new churches to reach underserved communities.
- 3) Cultivating Grace fosters collaboration by connecting and aligning the efforts of churches, non-profits, and government organizations, creating unified partnerships that address community needs and amplify the impact of the gospel.
