Lakeway Church Christian Preschool

2026-2027 After-School Enrichment Classes

Your child must be enrolled for the Fall/Spring semester (9:00 am-1:00pm) to register for After-School Enrichment Classes (1:00-2:30 pm).

Register early! Classes fill quickly!

After-School Enrichment Classes - 1:00 – 2:30 PM

Day	Enrichment Class	Age Group (Based on age as of September 1, 2026)
Monday	Brain Builders	3-5 years
	Habla Español	3-5 years
	Wee World Travelers	3-5 years
	Worship Kids	3-5 years
	Jump & Play	3-5 years
	Kindermusik Twos	2 years
Tuesday	Habla Español	3-5 years
	Jump & Play	3-5 years
	Worship Kids	3-5 years
	Green Thumbkins	3-5 years
	Little Bookworms	3-5 years
	Kindermusik Twos	2 years
Wednesday	Science Mania	3-5 years
	Bite Sized Bakers	3-5 years
	Jump & Play	3-5 years
	Color Me Happy	3-5 years
	Sign & Shine	3-5 years
	Jump & Play Twos	2 years
Thursday	Construction Zone	3-5 years
	Color Me Happy	3-5 years
	Jump & Play	3-5 years
	Kindermusik	3-5 years
	Science Mania	3-5 years
	Jump & Play Twos	2 years
Friday	Kindermusik	3-5 years
	Construction Zone	3-5 years
	Fun Friday	3-5 years
	Little Bookworms	3-5 years
	Fun Friday Twos	2 years

2026-2027 After-School Tuition Rates

1 class ..... $70 per month
2 classes ..... $140 per month
3 classes ..... $210 per month
4 classes ..... $280 per month
5 classes ..... $350 per month

After-School Drop-In ..... $30 per day

How to sign up

- An email will go out with the Sign Up Genius link on Tuesday, August 11, 2026 and will be live at 8:00 AM. The link will close at 3:00pm on Thursday, August 20.
- Each day will have slots showing the classes available. 3-5 years have 3-5 classes to choose from and 2 year olds have just one class available.
- **PLEASE ONLY SIGN UP FOR THE DAYS YOUR CHILD(REN) ARE ENROLLED**. MWF sign up for afterschool on MWF and TT sign up for TT afterschool classes.
- Signing up your child(ren) through Sign Up Genius enrolls your child(ren) for the 2026-2027 school year.
- Tuition for afterschool will start September 1, 2026.
- Students may drop/change After-School activities only if the LCCP office staff is informed in writing by the 20th of the previous month. Parents are responsible for any after-school tuition incurred for the following month should they fail to meet this deadline.
- Class change requests will be considered based on availability.
- Drop-In fees will be invoiced the day of drop-in and drafted with tuition on the 5th of the month.

Class Descriptions

Color Me Happy

Our Color Me Happy class introduces preschoolers to the joy of creating while learning about famous artists and their unique styles. Through hands-on projects using a variety of materials and techniques, children are encouraged to express their creativity and imagination. As they explore color, shape, texture, and design, they build fine motor skills, confidence, and an appreciation for art and the world around them.

Fun Friday & Fun Friday Twos

TGIF…let's celebrate! Fun Friday is a unique after school class designed around exciting monthly themes. Think "variety show." We will incorporate everything a preschooler loves—movement, singing, innovative art activities, and more during this last school time before the weekend!

Green Thumbkins

Gandhi said that "To forget how to dig the earth and to tend the soil is to forget ourselves." This class seeks to connect the wonder of childhood with the miracle of God's creation, as children learn more about their part in the greater world around them. Children will explore nature through exciting expeditions, environmental exploration, and cultivation of their own garden, fueling a passion for nature, recycling, and caring for what God called "good." Watch your little Green Thumbkins become Master Naturalists as they actively explore the world right outside the window.

Habla Español

Don't you wish you could have learned a foreign language from a young age? This class will introduce children to the Spanish language in a fun, interactive way. Children will learn through music, play, listening & repeating, and other interactions. Lessons will cover basic conversational skills, the alphabet, colors, numbers, shapes, family, seasons, days of the week, months of the year, body parts, school, occupations, opposites, food, and much more. Lessons are progressive and build upon knowledge gained from the prior week's lesson. Children will also learn songs throughout the year and incorporate sign language.

Bite Sized Bakers

Our Cooking Class introduces preschoolers to the joy of preparing simple, age-appropriate recipes in a fun and hands-on environment. As children measure, mix, pour, and create, they build early math, science, and fine motor skills while practicing following directions. Along the way, they explore new foods, learn about healthy eating, and gain confidence as they proudly enjoy the treats they make.

Jump & Play & Jump & Play Twos

Our Jump & Play class keeps preschoolers moving while building strength, coordination, balance, and confidence through fun, age-appropriate activities. Children enjoy games, obstacle courses, movement challenges, and team-building exercises that encourage cooperation and healthy habits. This energetic class helps develop gross motor skills while giving children opportunities to practice listening, following directions, and having fun in an encouraging environment.

Kindermusik (and Kindermusik for Twos)

Hans Christian Andersen said, "Where words fail, music speaks." Music is a powerful medium that has been shown to stimulate growth across all developmental domains in children. Children will learn new songs, discover how different instruments look and sound, examine rhythms, and sing along while their teacher sings and plays the guitar. They will have the opportunity to dance, use scarves, and even paint as they interpret and explore music from around the world and across time!

Science Mania

Have you ever seen an egg bounce? Made your own slime? Have you wondered how crystals are formed or what a tornado in a bottle might look like? Why can a huge ship made out of metal float on the ocean? If your child is curious about these and many other things, we have just the science class them! Using a wide variety of materials, our senses, and our IMAGINATIONS, we will explore the world of science from a

child's perspective through hands-on experiments and activities. Many of the activities and experiments will be seasonal and child-driven with their able-bodied adult lab assistants (a.k.a. preschool teachers!) right alongside them! We might have a few mad scientists on our hands before the year is over!

Construction Zone

Want to nurture your child's inner engineer, architect, or construction worker? Well, do we have the class for you! Through the use of a variety of tools and materials, your child will learn how to measure and build various structures of their own creation. They will strengthen and develop math skills and related vocabulary, while incorporating related sign language. So, let's put on our hard hats and toll belts on and let our imaginations flow!

Wee World Travelers

Get your child's passport ready, because they're about to cross borders and cultures and everything in between! Children will explore a new country each week through music, literature, games, art activities, geography, history, and many more elements of culture. Children will gain a greater sense of connectedness with the world and learn more about how kids just like them live in different environments! Children will make their own "passports," which will be stamped by customs each week! Let's see who can make it to the most number of countries this year!

Worship Kids

Get excited to learn songs and motions to some of your favorite praise and worship songs! In our Worship kids class children will be working with the teacher learning and growing in their performance skills as well as large motor skills. Children will also practice weekly to help lead chapel different times of the week!

Little Bookworms

In our Little Bookworms class, children dive into the world of stories through read-aloud, songs, and interactive activities. Each week features a new book that sparks imagination, builds vocabulary, and encourages a love for reading. Through storytelling and simple discussions, little learners develop listening skills and early literacy. It's a joyful first step into the world of books!

Brain Builders

Our STEM class inspires preschoolers to explore, create, and discover through hands-on learning experiences in science, technology, engineering, art, and math. Children build problem-solving skills as they experiment, ask questions, design, and create using a variety of engaging materials. Through play-based activities and teamwork, they develop curiosity, creativity, and confidence while having fun exploring the world around them.

Sign & Shine (Sign Language)

Our Sign Language class introduces preschoolers to basic American Sign Language (ASL) while helping them hide God's Word in their hearts. Children learn simple signs through songs, stories, and interactive activities as they practice signing meaningful Bible verses. This engaging class builds communication skills, strengthens memory, and encourages children to grow in their faith in a fun and meaningful way.
